

**Comments from member of the public regarding item 26.4b**

I would like the council to consider spending some of the Parks budget on the neglected St Margaret's Plain park (below). It is used but is very shabby and it is the only park in this neighbourhood where children and families don't have to cross a main road to access. I also think it would be uplifting to the neighbourhood to see LTC spending money on this type of facility, particularly during these tough times.
