

66.5- Water supply to Ness Park

The Ness Park project seems shrouded in secrecy. My Freedom of Information request to ESC about who was on the steering group seems to run by something called 'economic regeneration' and they give very limited information to ESC. In light of that, have LTC received a copy of the application made on behalf of ESC to develop Ness Park, listing things in and out of scope? If not, then why are LTC, considering spending anything on the Ness, when a near million-pound project surely should have included cost of utilities?

I urge the council not use local people's money before they have ascertained what exactly was in the proposal.
