

Good afternoon Lauren,

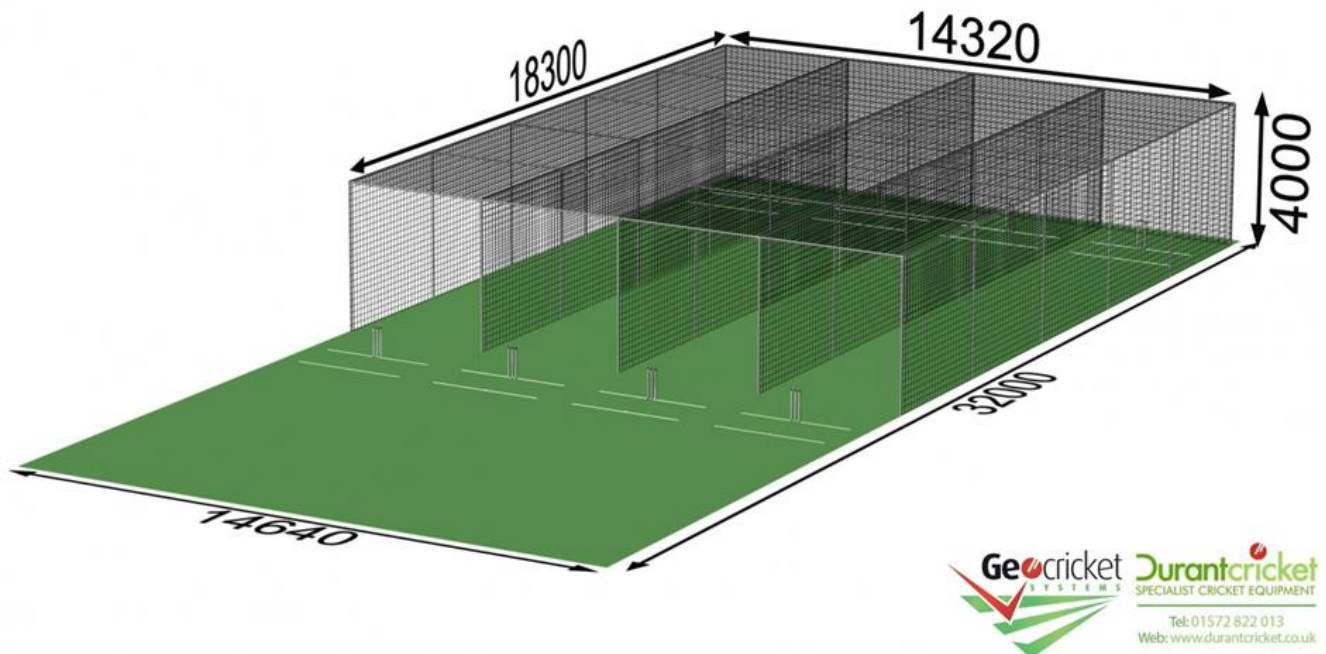

Hope you are well,

I would like to seek permission to install a new Cricket net area at the Denes Oval.

Our current net area has been damaged and now is unsafe to use unfortunately. I am actively looking for funding to complete this project but I would like to get permission from the Town Council to construct this net facility before we start the ball rolling with funding applications.

The facility will be as below and will include a security fence around its perimeter preventing any further vandalism of the new facility.

A4

This will ensure that we can provide a our members with a safe area to practice across all age groups both male and female, it will enable the club to re-engage with local schools in the area to offer coaching sessions giving our your people the opportunity to enjoy and utilise our green space.

We are looking at being able to offer cricket sessions for adults and children with additional needs in the near future and this facility will be a huge part of how we can safely carryout these sessions.

Thank you for your time, I look forward to hearing from you soon.
