Subject: E-Cargo Bikes

Good morning

Please see below information from 'The Way To Go Suffolk Team' regarding an E-Cargo bikes trial.

Please share this with your networks as you see appropriate

Best regards

East Suffolk Council Economic Development Team

Could an electric cargo bike benefit your business, organisation or community? With capacities up to 100kg and a range up to 50 miles, e-cargo bikes are set to become the delivery vehicle of choice for 'last mile' and town centre logistics. Working with well-known bicycle manufacturer Raleigh, Suffolk County Council have secured the opportunity for a small number of businesses and organisations to have a free trial of a cargo bike, with the option to apply for funding of up to 50% of the cost if you decide to purchase one following your trial, depending on the amount of interest. There are two styles of E-Cargo Bike that Raleigh offers:

- 1. Open box style which comes in 2 or 3 wheel options*
- 2. Delivery bikes – also in a choice of 2 or 3 wheel options*

If you are interested and would like to find out more, please contact thewaytogosuffolk@suffolk.gov.uk

Kind regards,

The Way To Go Suffolk Team
