stated maximum budget; seconded by Cllr Jones; twelve Councillors voted in favour; one Councillor abstained from the vote.

104.2. The draft minutes of the Finance and Governance Committee meeting on 10 September 2024 – The draft minutes were received and noted.

104.3. Recommendations and matters from the Finance and Governance Committee:

104.3a. Rationalisation of items 6.18 and 6.19 in Financial Regulations, including current authorised users and scenarios, protocol for reviewing and adding new authorised users and review of authorisation limits – The new model Financial Regulations were adopted by the Town Council earlier in the year, noting they would require tailoring to align with the Council's processes. These provisions relate to which officers can hold a debit/credit card for business purposes, and the authorised protocol for use of personal debit/credit cards and reimbursement. This had been considered by the Finance and Governance Committee, and Cllr Pearce proposed to endorse the recommendation of the Finance and Governance Committee; seconded by Cllr Rappensberger; all in favour.

104.3b. The increase in legal fees and budget implications (some aspects may be confidential) – To be considered during the confidential session.

104.3c. A maximum budget of £20,000 to purchase a facilities management software programme, with a delegation to the Acting Town Clerk to undertake the procurement within that budget –

The Acting Town Clerk temporarily left the meeting 18:38

The Town Council had appointed a Facilities and Contracts Manager due to the significant amount of assets-related work. Information was saved in different places and a software system would pull this together and enable progress monitoring.

The Acting Town Clerk returned 18:39

Another quote was pending. Cllr Pearce proposed to endorse the recommendation of the Finance and Governance Committee, and delegate authority to officers to make procurement within that agreed maximum budget; seconded by Cllr Brooks; all in favour.

105. Town Hall Project

105.1. The draft minutes of the Town Hall Project Committee meeting on 12 September 2024 – The draft minutes were not available for this meeting.

105.2. The delivery stage of the redevelopment of the Town Hall:

105.2a. A progress report from the Project Manager, including an update on the procurement of a main build contractor (some aspects may be confidential) –

The Town Hall Project Manager joined the meeting remotely 18:43

A report had been provided in advance by the Project Manager. Several compliant bids had been received as a result of the main construction tender process, but all exceeded the budget. The project team had looked at what could be done differently, and had asked the bidders to price the proposals and come back. This would reduce the shortfall but the project team were continuing to seek ways to reduce the costs and the funding gap. Further deterioration of the building over the winter would be inevitable. Reasons for the budgeting being exceeded had been given in the report, this included the provision of a soakaway for rainwater mitigation, at the insistence of Anglian Water. It had been established that the roof tiles were not slate and no resale value, but would require full replacement. There had been significant increased costs for mechanical and electrical services, such as heating, plumbing and AV. This would be discussed with the appointed contractor, and additional sources of funding were being explored. The National Lottery Heritage Fund would be willing to consider a further application, but would need to see evidence of other funders.

18:30 on 24 September 2024

There was no additional Towns Fund funding. East Suffolk Council was considering a further contribution. The Public Works Loan was currently set at a ceiling of £4million and could be increased, so the Town Council itself was contributing more. It had previously been resolved that the servicing of the loan would not in and of itself trigger an increase to the precept, and that promise would need to stand.

- 105.2b. Approving submission of an application to the Public Works Loan Board for an uplift and extension on the already approved borrowing terms, noting the cost of servicing the loan should not trigger an increase in the precept – Cllr Brooks proposed approving the application, subject to the servicing of the loan not increasing the precept. Cllr Pearce seconded the proposal on the basis it is a request to apply at this stage. This would be accompanied by affordability calculations, which would demonstrate that the cost of servicing the loan at current rates could be met from a cumulative combination of rent and service charges for Hamilton House, income from commercial tenants and the year on year savings, following the transitional period, of bringing grounds maintenance services ‘in house’. It would be a condition that an application would only be submitted on the basis that existing income or revenue would be used and redirected, and would not require a precept increase to service the loan. It may not be necessary to draw down the full amount, and any request to draw down would have to come back to Full Council. The vote was taken and all Councillors voted in favour. There were no confidential matters to consider under this item.

The Town Hall Project Manager left the meeting 18:51
